NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

As at and for the three months ended March 31, 2022

---

## 1. CORPORATE INFORMATION

Angel Wing Metals Inc. (Formerly Huntington Exploration Inc.) (“Angel Wing” or the “Company”) is a junior mining company. The principal business of the Company is the identification, evaluation and acquisition of mineral properties, as well as exploration of mineral properties once acquired. The Company is an exploration stage company and is in the process of acquiring and exploring its mineral property interests. The Company’s shares trade on the TSX Venture Exchange under the symbol AWM.

Angel Wing Exploration Inc. (“Angel Wing” or the “Company”) was incorporated as 676182 Alberta Ltd. under the laws of the Province of Alberta on November 28, 1995. The Company’s principal operating address is Suite 205 1170 Kensington Crescent NW, Calgary, Alberta T2N 1X6 and the registered office is located at Suite 1000, 250 - 2 Street SW, Calgary Alberta T2P 0C1.

The Company is currently in the process of transferring its legacy oil and gas properties in Western Canada to Huntington Capital Inc.

Angel Wing has a 100% interest in Huntington Capital Inc.

## 2. BASIS OF PREPARATION

### Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting. They do not contain all disclosures required by International Financial Reporting Standards (“IFRS”) for annual financial statements and, accordingly, should be read in conjunction with the audited financial statements for the year ended December 31, 2021. These condensed financial statements were authorised for issue by the Board of Directors on May 27, 2022.

### Going concern assumption

These financial statements have been prepared on a going concern basis. In making the assessment that the Company is a going concern management has taken into account available information about the future, which is at least, but not limited to, one year from December 31, 2021

### Coronavirus

The outbreak of the novel strain of coronavirus, specifically identified as “COVID-19” was declared a global pandemic by the World Health Organization on March 11, 2020. Governments worldwide enacted emergency measures to combat the spread of the virus. These measures have caused material disruption to businesses globally resulting in an economic slowdown resulting in significant volatility and weakness.

Governments and central banks have reacted to the global pandemic with significant monetary and fiscal interventions designed to stabilize economic conditions. However, the duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the governments and central bank interventions.

### Functional and presentation currency

These financial statements are presented in Canadian dollars, which is the Company’s functional currency.

### Basis of measurement

These financial statements have been prepared on a historical cost basis except share based payment transactions that are measured at fair value.

### Basis of consolidation

The consolidated financial statements comprise of the financial statements of Angel Wing Exploration Inc. (the parent Company) and its subsidiary, Huntington Capital Inc. The subsidiary has been fully consolidated from the date of its incorporation. Intercorporate transactions have been eliminated.

---

## 2. BASIS OF PREPARATION (CONTINUED)

### Use of Estimates

The preparation of financial statements requires management to make estimates and use judgment regarding the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as at the date of the financial statements and the reported amounts of revenues and expenses during the period. By their nature, estimates are subject to measurement uncertainty and changes in such estimates in future periods could require a material change in the financial statements. Accordingly, actual results may differ from the estimated amounts as future confirming events occur. Significant estimates and judgments made by management in the preparation of these financial statements are as follows:

### *Share-based compensation*

The company measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

### *Exploration and Evaluation Expenditure*

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information become available

### Valuation of account receivable

The valuation of accounts receivable is based on management's best estimate of the provision for expected credit losses.

### *Decommissioning and Abandonment Provisions*

Decommissioning and abandonment provisions have been created based on the Company's knowledge as at December 31, 2021 and 2020. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standard and techniques will result in changes to provisions from period to period. Actual decommissioning costs will ultimately depend on future market prices from the decommissioning costs which will reflect the market conditions at the time of the decommissioning costs are actually incurred. The final cost of the currently recognized decommissioning provisions may be higher or lower than currently provided for.

### *Income Taxes*

Significant judgment is required in determining the provision for income taxes. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognizes liabilities and contingencies for anticipated tax audit issues based on the Company's current understanding of the tax law. For matters where it is probable that an adjustment will be made, the Company records its best estimate of the tax liability including the related interest and penalties in the current tax provision. Management believes they have adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

# Angel Wing Metals Inc. (Formerly Huntington Exploration Inc.)

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

As at and for the three months ended March 31, 2022

---

## 2. BASIS OF PREPARATION (CONTINUED)

In addition, the Company recognizes deferred tax assets relating to tax losses carried forward to the extent there are sufficient taxable temporary differences (deferred tax liabilities) relating to the same taxation authority and the same taxable entity against which the unused tax losses can be utilized. However, utilization of the tax losses also depends on the ability of the taxable entity to satisfy certain tests at the time the losses are recouped.

### *Deferred price premium on flow-through shares*

The amounts recorded for the deferred price premium on flow-through shares and the related deferred income tax effect are based on management's estimates of the estimated market value of the Company's shares on the date of issuance of the flow-through common shares.

### *Reserves*

The estimate of reserves is used in forecasting the recoverability and economic viability of the Company's oil and gas properties, and in the depletion and impairment calculations. The process of estimating reserves is complex and requires significant interpretation and judgment. It is affected by economic conditions, production, operating and development activities, and is performed using available geological, geophysical, engineering, and economic data. As of December 31, 2021, the Company no longer carries any oil and gas assets that have been assigned economic reserves.

## 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting. They do not contain all disclosures required by International Financial Reporting Standards ("IFRS") for annual financial statements and, accordingly, should be read in conjunction with the audited financial statements for the year ended December 31, 2021.

## 4. MARKETABLE SECURITIES

The marketable securities consist of units in Scotia Mortgage Income Fund. The principle of \$3,000,000 is guaranteed by Scotia Bank.

## 5. INVESTMENT IN LAGO DE ORO SA DE CV

On March 30, 2022 the Company completed the acquisition of Lago de Oro SA de CV ("LOM") and its El Grande Gold Project (the "Project") covering a 550 square kilometer area in the southern extension of the Sierra Madre Occidental ("SMO") gold-silver belt in the state of Nayarit, Mexico.

The acquisition was completed by way of a definitive purchase agreement with an arm's length third party for 100% of the issued and outstanding shares of LOM in exchange for i) cash payment of US\$500,000; ii) issuance of 4,000,000 common shares of the Company at a deemed price of \$0.20 per share; iii) a capped 2% NSR to the vendor; and iv) future share-based "milestone payments" based on the incremental addition of gold-equivalent (gold-silver) NI 43-101 resource ounces above a base 500,000 ounces on any given deposit currently held by LOM, capped at 20,000,000 shares subject to TSXV approval at the time of issuance. The common shares issued in connection with the acquisition will be subject to a hold period of four months and a day from the date of closing.

The acquisition represents a unique opportunity for Angel Wing to be the first mover in a potential district - scale gold-silver system as the project already contains widespread evidence of gold mineralization with no history of modern exploration or drilling to date.

# Angel Wing Metals Inc. (Formerly Huntington Exploration Inc.)

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

As at and for the three months ended March 31, 2022

## 5. INVESTMENT IN LAGO DE ORO SA DE CV (CONTINUED)

The carrying amount of the investment in Lago de Oro SA de CV is summarized below:

	\$
Balance, January 1, 2022	-
Cash investment	624,490
Equity investment	800,000
Contributions to Lago De Oro SA De CV	<u>113,340</u>
Balance, March 31, 2022	<u><u>1,537,830</u></u>

## 6. MINERAL EXPLORATION AND EVALUATION ASSETS

	<u>Total</u>
December 31, 2020	\$ 33,635
Additions	<u>1,551,601</u>
December 31, 2021	1,585,236
Additions	<u>1,350,804</u>
March 31, 2022	<u><u>\$ 2,936,040</u></u>

Mineral Exploration and Evaluation (E&E) assets consist of the Company's mineral property projects which are pending the Exploration determination of proven or probable reserves.

The Company has taken steps to verify title to mining interests in which it has or is in the process of earning an interest in, including review of condition of title reports, vesting deeds, mining claim location notices and filings, and property tax and other public records and is not presently aware of any title defects. The procedures the Company has undertaken and may undertake in the future to verify title provide no assurance that the underlying properties are not subject to prior agreements or transfers of which the Company is unaware.

(UNAUDITED)

As at and for the three months ended March 31, 2022

## 7. PROPERTY, PLANT AND EQUIPMENT

The following represents a summary of changes in the Company's property and equipment.

	Petroleum Properties	Office Equipment	Total
Cost:			
December 31, 2020	\$ 1,168,896	\$ 7,599	\$ 1,176,495
Additions	-	3,385	-
December 31, 2021	1,168,896	10,984	1,179,880
Additions	-	-	-
March 31, 2022	<u>\$ 1,168,896</u>	<u>\$ 10,984</u>	<u>\$ 1,179,880</u>
	Petroleum Properties	Office Equipment	Total
Depletion, depreciation and impairment losses:			
December 31, 2020	\$ 1,168,896	\$ 7,467	\$ 1,176,363
Depletion/depreciation	-	222	222
December 31, 2021	1,168,896	7,689	1,176,585
Depletion/depreciation	-	249	249
March 31, 2022	<u>\$ 1,168,896</u>	<u>\$ 7,938</u>	<u>\$ 1,176,834</u>
	Petroleum Properties	Office Equipment	Total
Carrying amounts:			
At December 31, 2021	\$ -	\$ 3,295	\$ 3,295
At March 31, 2022	\$ -	\$ 3,046	\$ 3,046

## 8. DECOMMISSIONING LIABILITIES

The following table presents the reconciliation of the beginning and ending aggregate carrying amount of the obligation associated with the decommissioning of oil and natural gas properties.

	March 31, 2022	December 31, 2021
Opening balance	\$ 89,935	\$ 87,204
Accretion expense	696	2,731
Closing balance	<u>\$ 90,631</u>	<u>\$ 89,935</u>

The undiscounted amount of cash flows, required over the estimated life of the underlying assets, to settle the obligation, adjusted for inflation, is estimated at \$110,487. The obligation was calculated using a risk-free discount rate of 3.13% and an inflation rate of 2.5%. It is expected that the majority of costs are expected to occur between 2022 and 2029.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

As at and for the three months ended March 31, 2022

---

## 8. DECOMMISSIONING LIABILITIES (continued)

Pursuant to government regulations, the Company has on deposit cash of \$46,092 (2021 - \$46,035) restricted for the completion of future abandonments.

## 9. SHARE CAPITAL

### a) Authorized

Unlimited number of:

Common shares without par value

Preferred shares, assumable in series

### b) Class A Common Shares Issued

On March 30, 2022 the Company completed its acquisition of Lago de Oro Sa de CV for 4,000,000 shares at a price of \$0.20 per share and a cash payment of US\$500,000.

On July 28, 2021 the Company completed its acquisition of the Winora property for 4,000,000 shares at a price of \$0.304 per share.

On June 16, 2021 the Company closed its private placement with Canaccord Genuity Corp. and Sprott Capital Partners for gross proceeds of \$6,000,000 comprised of units ("HD Units") sold at a price of \$0.28 per HD Unit. The Company also closed its contemporaneous non-brokered private placement of flow-through units ("FT Units") sold at a price of \$0.35 per FT Unit for aggregate proceeds of \$2,500,000. Each HD Unit and FT Unit consisted of one common share of the Company and one-half of one transferable common share purchase warrant (each whole common share purchase warrant, a "Warrant"). Each Warrant will entitle the holder thereof to purchase one common share of the Company at an exercise price of \$0.40 for the period of 2 years following the closing of the Offering.

On February 8, 2021 the Company completed its acquisition of rights to mineral exploration properties that comprises of the Quartz Lake Project and issued 200,000 common shares at a deemed price of \$0.165 per share.

### c) Stock Options

The Company's stock option plan limits the number of common shares reserved under the plan from exceeding a "rolling maximum" of ten (10) percent of the Company's issued and outstanding common shares. Under the plan, the number of stock options for any one (1) individual may not exceed 5% of the issued and outstanding shares in any one twelve-month period. The stock options vest at the discretion of the Board of Directors upon grant to directors, officers, employees and consultants of the Company.

## 11. FINANCIAL INSTRUMENTS

(a) Foreign Currency Exchange Risk

The Company periodically has transactions in US dollars. The US dollar also influences the price of oil and natural gas sold in Canada. Price fluctuations, as a result can affect the fair value of the Company's property and equipment and future cash flows however, given it is an indirect influence, the impact of changing exchange rates cannot be accurately quantified.

(b) Market risk

The Company is subject to market risk on its marketable securities. The Company mitigates its exposure to market risk by investing in mortgage funds that guarantee the principle.

(c) Fair Value of Financial Instruments

The Company classifies the fair value of these financial instruments measured at fair value subsequent to initial recognition according to the following hierarchy based on the amount of observable inputs used to value the instrument.

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.  
Cash, restricted cash and the investment have been classified as Level 1.

(d) Liquidity Risk

Liquidity risk includes the risk that, as a result of the Company's operational liquidity requirements:

- The Company will not have sufficient funds to settle a transaction on the due date;
- The Company will be forced to sell financial assets at a value which is less than what they are worth; or
- The Company may be unable to settle or recover a financial asset.  
To manage cash flow requirements, the Company maintains a significant portion of its assets in cash and marketable securities.
